

Health Guarantee  
Lake Stockton Bully Babies  
Sara Eagon  
505 West Craig Street  
Stockton, MO 65785

This puppy has been health checked by Strafford Veterinarian, Dr. Ken Mallard or Dr. David Sikes, Strafford MO. (417)736-3131, and is guaranteed to be free of serious, life threatening conditions. Any prior surgeries or known problems will be listed below.

Buyer has 72 hours after receiving the puppy to have a Veterinarian of their choice(preferably with an experience of the Bulldog bred) to do a health check. It is to your benefit to have this done. A copy of the health check must be sent or emailed to the seller no later than midnight on the third day after receiving the puppy or this will void the contract and the Seller no longer is liable for the puppy. If your Veterinarian finds a life-threatening problem, you must contact the Seller immediately (that day) with the written findings of the problem. At that time it will be reviewed by Dr. Ken Mallard at Strafford Veterinarian Clinic, if he agrees with the Life-Threatening issue the puppy will be returned to the seller and a refund will be given for the initial cost of the puppy, or an exchange for another puppy, if available (Sellers choice). Puppy must be returned in the condition it was received and all paperwork must be along with AKC registration signed back over to the Seller before any refund or exchange is given. No refund will be given if the puppy has been spayed or neutered. The Seller will not pay for delivery of a return or delivery of the exchanged puppy. The Seller will not pay for any surgeries the Buyer elects to have done to the puppy. If any minor breed related, treatable or correctable conditions arise such as Cherry eye, eyelid surgery (upper or lower), elongated pallets, Inverted tail, respiratory, or skin problems of any kind, these are not covered by the Seller. Hip, elbow, knee dysplasia can be a result of environmental problems such as lack of proper nutrition, exercise, floor surface, being allowed to jump down or falling off of taller structures or rough housing with other pets or humans. Due to this, Seller cannot guarantee hip, elbow or knee dysphasia beyond the initial health check. In the event of death a full autopsy must be obtained to establish cause of death at Buyers expense.

**NO GUARANTEE AFTER ONE YEAR FROM THE PUPPY'S DATE OF BIRTH**
